According to the Conclusion of the Central Election Commission of Bosnia and Herzegovina passed at its 44th session on August 12, 2016, election administration of Bosnia and Herzegovina authorized use of this manual at the 2016 Local Elections.

The manual was prepared with financial help from the Council of Europe. Opinions expressed in it do not in any way reflect official opinions of the Council of Europe.

On behalf of the Central Election Commission of Bosnia and Herzegovina I would like to welcome you to the 2016 Local Elections in Bosnia and Herzegovina. These are the fourth local elections organized and administered by the Central Election Commission since its establishment in 2001.

Every citizen of Bosnia and Herzegovina, who has attained 18 years of age, is eligible to vote and to be elected, thus to express his/her free will, which is respected.

To ensure that all the pre-election and election activities are implemented in accordance with the Election Law of Bosnia and Herzegovina and the highest international electoral standards, the Central Election Commission of Bosnia and Herzegovina has made further efforts in educating the election administration, training and certification of trainers, who trained and certified the presidents and members of polling station committees. An election electronic database of trained and certified president and members of polling stations committees will be made first time for these elections, and it represents a step towards the professionalization of polling station committees.

An important part of the electoral process is observation of electoral activities that promotes democracy, human rights and the rule of law. The Central Election Commission of Bosnia and Herzegovina strongly encourages local and international observers to observe the election activities, thus contributing to the strengthening of democratic institutions, building public confidence in the electoral process, and preventing electoral fraud and violence.

This manual is designed as a comprehensive guide for observers of the electoral process with intention to provide general information on the rights and obligations of observers. The manual also provides general information about elections in Bosnia and Herzegovina, the accreditation procedures of observers, description of activities and procedures on the Election Day. Annex to this manual provides cartographic overview of electoral units, the number of voters registered in the Central Voters' Register by the electoral units and the Code of Conduct for International Observers.

Once again, I wish you a warm welcome to the 2016 Local Elections in Bosnia and Herzegovina.

Sarajevo, August 2016

Dr. Abmot Čantić

President

1.6 The election system in Bosnia and Herzegovina

Scheme 1. Outline of the election system in Bosnia and Herzegovina

Two election systems apply in Bosnia and Herzegovina:

- Majority system (system of simple majority), and
- System of proportional representation.

The Majority system

A characteristic of the majority system (a system of simple majority) is that the winner gets everything, and it is applied in the election of mayors and City mayors, and in the election of representatives of national minorities.

The system of proportional representation is used in the election of representatives/councilors in the Assembly of Brčko District of B&H, City assemblies/City councils and municipal councils/municipal assemblies.

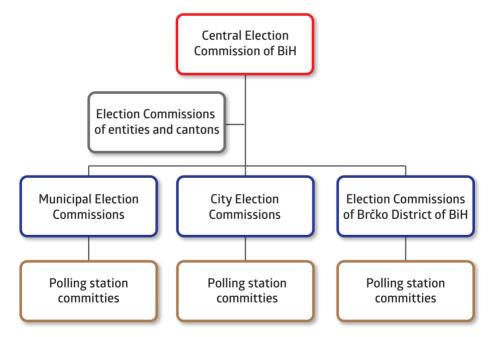

Allocation of mandates with the system of proportional representation is done using the Sainte-Laguë method for converting votes into the mandates by dividing of the total number of votes with odd numbers 1. 3. 5. 7...... etc.

In order for political subjects to participate in the allocation of mandates, they have to win more than 3% of the total number of valid votes in basic electoral unit in which they participate in the elections.

In addition to the election threshold of 3% within the "half-open" list, there is a threshold of 10% of valid votes received by a political subject in order for the candidate to progress on the list.

1.7 Election Administration

The competent election management bodies in Bosnia and Herzegovina are the election commissions and polling station committees.

- Central Election Commission of Bosnia and Herzegovina
- Municipal and city election commissions and Election Commission of Brčko District of Bosnia and Herzegovina
- Polling station committees and other election commissions.²

The BiH Central Election Commission consists of seven (7) members: two (2) Croats, two (2) Bosniaks, two (2) Serbs and one (1) representing "Others". The BiH Central Election Commission has a president elected amongst and by the members of the Commission, and his/her mandate is 21 months.

Municipal election commission consists of three (3), five (5) or seven (7) members. The number of members for each municipality is determined by the BiH Central Election Commission in the following manner: municipalities having up to 20.000 voters registered in the Central Voters' Register have three (3) members, while those having more than 20.000 registered voters have five (5) members.

Polling Station Committees consist of three (3) or (5) members of whom one is the president of the Polling Station Committee.

The President and members of the Polling Station Committee shall have deputies.

² According to the Election Law of Republika Srpska, Election Commission of Republika Srpska was established, and on the basis of the Law on the Establishment of authority for the conduct of elections in the Federation of Bosnia and Herzegovina, the establishment of the authorities for the conduct of elections was anticipated, but never completed.

In the electoral units in which the members of national minorities are elected, you have the possibility to vote for a member of national minority by:

 marking only one name on the special list of candidates belonging to national minorities.

If you decide to vote for a member of national minorities, you cannot also cast a vote for a political party, or coalition, or the list of independent candidates, or an independent candidate, given that your ballot shall be deemed invalid in case you voted for both options.

5. Inserting ballots into the ballot box

IMPORTANT!!!

Ballots are inserted in the ballot box one at the time !!!!!

Accredited observer should pay attention to the following activities of the Polling station committee during the voting:

- whether the secrecy of the vote is respected, i.e., whether only one person is in the booth;
- whether the multiple voting prohibition is respected, namely the prohibition that a person casts a ballot for another person under his/her name:
- ☑ whether the Polling station committee ensures that no person interferes with a voter completing his/her ballots, by seeking information from him/her about who he/she wants to vote for, who he/she is voting for, who he/she voted for, or prevents or attempts to prevent anyone from exercising his/her voting rights;

- ☑ whether the president and members of the Polling station committee perform their duties in the prescribed manner.
- whether the voting was intrrupted and if so, whether the Election Commission was informed thereof in the prescribed manner?

IMPORTANT!!!

- o Physically disabled voters are those voters who came to the polling station, but are unable to enter. A member of the polling station committee meets the physically disabled voter after notifying the president thereof. The bodily incapacitated voter completes the ballots and place them into the envelope provided. The person who is chosen by the bodily incapacitated voter takes the envelope with the ballots and puts it into the ballot box.
- o There shall be only one person in the polling booth at one time, except in the case of voters who are blind, illiterate or bodily incapacitated.
- o A person who abuses the right to vote or makes an electoral fraud, shall be held criminally responsible.
- o A member of the Polling station committee, who is in charge of identification, reads aloud the name of the voter who signed the excerpt of the final Central Voters' Register.
- o A member of the Polling Station Committee, who is in charge of the control of the ballot box, ensures that no voter leaves the polling station before casting the ballots into the ballot box, and ensures that each and every ballot is folded and put into the ballot box one by one, as to protect secrecy of the vote.

3.5 Closing a polling station

During the closing of a polling station, the observer should observe the following activities of the polling station committee:

- ☑ whether the voters in the line for voting at the time of closing were given permission to vote, namely whether the following procedure was conducted at the time of closing the polling station:
- ☑ President, 15 minutes before closing the polling station, announces to everyone present inside and outside the polling station the time when the polling station closes;
- ☑ the president appoints one member of the Polling station committee to stand at the end of the line at the polling station's closing time in order to ensure that no person arrives in the line after closing of the polling station.
- ☑ the member of the Polling station committee closes the door immediately after the last voter in the line has voted:
- ☑ President records the time of closing the polling station in the "Minutes on the work of the polling station committee on the Election Day Form ZARBO II";
- ☑ President closes the opening of the ballot box by sealing tape and signs it;
- ✓ Whether the president of the polling station committee has recorded all observes present at the time of closing in the prescribed manner;
- ☑ Whether the president of the polling station committee has entered all information into the Stock Form?

30

3.6 Counting procedure at the polling station

The observer should observe the following activities of the polling station committee after closing of the polling station:

- ☑ whether the number of unused ballots is determined and packed into the gray protective bag;
- ✓ whether the number of voters who voted at that polling station is determined by manually counting the number of signatures on the excerpt from the Central Voters' Register, and whether this information is entered into the Stock form;
- ☑ whether the large work surface is formed for counting the ballots from the ballot box:
- ☑ whether the ballot box was completely emptied onto the work surface, and whether it was shown that the ballot box was empty;
- ☑ whether the ballots are sorted by levels;
- ☑ whether the ballots with levels that are not counted put in a bag and kept on the work surface;
- ☑ whether the ballots are counted in teams consisting of two persons (double counting) in sets of 25, and whether the number of votes won by political subjects is correctly determined?

Where the vote count is done in a semi-open list system the votes that the candidates won within the list are counted after the results per political subjects are determined. At this time, the observer should observe the following:

- ☑ whether the counting is performed in teams of four members, where one member of the team reads, second controls the reading, and two members of that team record the data in the auxiliary form per candidates.
- ☑ whether the Polling station committee, having completed the counting cycle, packaged the material in bags according to the scheme of packaging, put the seal, and entered the counting results into the forms.
- ✓ whether the forms (yellow copy) with the results of counting are displayed at the polling station.

IMPORTANT!!!

- o When counting the ballots, ballpens can only be used by the team members that record data in the auxiliary form, and by the president for recording data into forms.
- o Each polling station has the forms onto which the election observers can copy the results from the yellow copies.

3.7 Objections of the observers

During the observation of the electoral process, you, as an observer, should be aware of the atmosphere inside and outside the polling station. If you notice any problems or violations of election procedures, please contact the president of the Polling station committee. The way you addressed the President must be in such a way that it cannot be interpreted as giving directions, orders nor as interference in the electoral process.

IMPORTANT!!!

o Each observer should differentiate between irrelevant errors in implemention of the rules and regulations, and such violations that can flagrantly violate the election process and influence the election results !!!!!!!!!!

If the president of the Polling station committee fails to remedy the observed shortcoming or violation of election procedures, enter your observations into the Poll Book, Report form⁷ and sign it. The observer is entitled to request a copy of the Poll Book from the Polling station committee which work he observed.

Accredited observer or political entity may, on the basis of complaints listed in the Form, submit a complaint to the competent authority responsible for the conduct of elections.

IMPORTANT!!!

- o systematic or repeated violation of regulations and procedures
- o violation of the secrecy of the vote
- o impact on the free choice of voters
- o violation of regulations and procedures that may affect the accuracy of the election results.

We recommend that you pay close attention to, or to immediately notify the Municipal Election Commission of the following situations:

- If you or any other observer are not allowed to enter the polling station or if you are removed from it;
- if chaos and confusion come to exist at the polling station;
- If one is prevented from entering objections to the Poll Book.

OPINIONS OR COMPLAINTS - Form – section where a member of the Polling station committee, a voter, or an accredited observer writes his/her opinion or complaint. A member of the Polling station committee, voter, or accredited observer may enter his/her opinion or complaint to the voting process, which he/she shall sign (opinion or complaint that is not signed personally shall not be considered). The observer may file, in writing, detailed objections to the work of Polling station committee, which are attached to the Poll Book (the president shall specifically enter such a case into the Poll Book).

3.8 Obstruction of electoral activities by observers

Accredited observer shall sign the Code of conduct and shall comply with the following rules:

- > to be impartial in accordance with his/her duties;
- not to interfere in the electoral process, which includes the registration of voters in the Central Voters' Register, procedure on the day of voting or counting of votes, and to observe the secrecy of the vote;
- not to try to make any impact on any person in relation to his/ her choice of voting options or his/her way of marking the ballot paper;
- > to respect the provisions of the BiH Election Law.

- disrupts electoral activities,
- does not observe the secrecy of voting,
- carries no official accreditation,
- bears the marking that links such an observer to a particular political entity.

In the process of removal of an accredited observer from the polling station, the representative of the EMB must give prior warning to the accredited observer who disrupts the electoral process, and take all other appropriate measures and actions to prevent such interference, and if such accredited observer continues to disrupt the process, he /she shall be removed from the polling station. Any removal from the polling station should be recorded in the Z8 form of the Poll Book. Code of Conduct for international observers •

International election observation is now accepted worldwide, and is conducted by intergovernmental and international nongovernmental organizations and associations in order to provide an impartial and accurate assessment of the nature of election processes for the benefit of the citizens of the country where the elections are held, as well as for the benefit of the international community. Because of that, it is very important to ensure the integrity of international election observation, and all those who take part in the international election observation mission, including short-term and long-term observers, members of the assessment delegation, specialized observation teams and leaders of the mission, must observe and commit to the Code of Conduct.

⁸ Elections for the City of Mostar are not scheduled.

⁹ Adopted on 27 October 2005 at the United Nations in New York. Organizations that have adopted those documents as of 24 October 2005 are the following: African Union, Asian Network for Free Elections (ANFREL), Carter Center, Center for Electoral Promotion and Assistance (CAPEL), Commonwealth Secretariat, Council of Europe - European Commission for Democracy through law (Venice Commission), Council of Europe-Parliamentary Assembly, the Electoral Institute of southern Africa (EISA), European Commission, European network of election monitoring organizations (ENEMO), International service for electoral reform (ERIS) IFES International IDEA, Inter-Parliamentary union, International Republican Institute (IRI), National democratic Institute (NDI), Organization of American states (OAS), Organization for security and Cooperation in Europe, Office of democratic institutions and human rights (OSCE / ODIHR), Association of electoral administrators of Pacific islands, Australia and New Zealand (PIANZEA), Pacific islands Forum, United Nations Secretariat.

Respect the sovereignty and international human rights - Elections are an expression of sovereignty belonging to the people of a country, whose expression of free will provides the basis for the authority and legitimacy of government. The rights of citizens to elect and be elected at periodic, genuine democratic elections fall under internationally recognized human rights, and such rights require the exercise of a series of basic human rights and freedoms. Election observers must respect the sovereignty of the host country, as well as human rights and fundamental freedoms of its citizens.

Respect the laws of the country and the authority of electoral bodies - Observers must respect the laws of the host country and the authority of the bodies charged with administering the electoral process. Observers must follow any lawful instruction from the country's governmental, security and electoral authorities. Observers also must maintain a respectful attitude toward electoral officials and other national authorities. Observers must note if laws, regulations or the actions of state and/or electoral officials unduly burden or obstruct the exercise of election related rights guaranteed by law, constitution or applicable international instruments.

Respect the integrity of the International Election Observation Mission - Observers must respect and protect the integrity of the international election observation mission. This includes following this Code of Conduct, any written instructions (such as a terms of reference, directives and guidelines) and any verbal instructions from the observation mission's leadership. Observers must: attend all of the observation mission's required briefings, trainings and debriefings; become familiar with the election law, regulations and other relevant laws as directed by the observation mission; and carefully adhere to the methodologies employed by the observation mission. Observers also must report to the leadership of the observation mission any conflicts of interest they may have and any improper behavior they see conducted by other observers that are part of the mission.

Maintain strict political impartiality at all times - Observers must maintain strict political impartiality at all times, including leisure

time in the host country. They must not express or exhibit any bias or preference in relation to national authorities, political parties, candidates, referenda issues or in relation to any contentious issues in the election process. Observers also must not conduct any activity that could be reasonably perceived as favoring or providing partisan gain for any political competitor in the host country, such as wearing or displaying any partisan symbols, colors, banners or accepting anything of value from political competitors.

Do not obstruct election processes - Observers must not obstruct any element of the election process, including pre-election processes, voting, counting and tabulation of results and processes transpiring after Election Day. Observers may bring irregularities, fraud or significant problems to the attention of election officials on the spot, unless this is prohibited by law, and must do so in a non-obstructive manner. Observers may ask questions of election officials, political party representatives and other observers inside polling stations and may answer questions about their own activities, as long as observers do not obstruct the election process. In answering questions observers should not seek to direct the election process. Observers may ask and answer questions of voters but may not ask them to tell for whom or what party or referendum position they voted.

Provide Appropriate Identification - Observers must display identification provided by the election observation mission, as well as identification required by national authorities, and must present it to electoral officials and other interested national authorities when requested.

Maintain the accuracy of observations and professionalism in drawing conclusions - Observers must ensure that all of their observations are accurate. Observations must be comprehensive, noting positive as well as negative factors, distinguishing between significant and insignificant factors and identifying patterns that could have an important impact on the integrity of the election process. Observers' judgments must be based on the highest standards for accuracy of information and impartiality of analysis, distinguishing subjective factors from objective evidence. Observers must base all conclusions on factual and verifiable evidence

and not draw conclusions prematurely. Observers also must keep a well-documented record of where they observed, the observations made and other relevant information as required by the election observation mission and must turn in such documentation to the mission.

Refrain from making comments to the public or the media before the mission speaks- Observers must refrain from making any personal comments about their observations or conclusions to the news media or members of the public before the election observation mission makes a statement, unless specifically instructed otherwise by the observation mission's leadership. Observers may explain the nature of the observation mission, its activities and other matters deemed appropriate by the observation mission and should refer the media or other interested persons to the those individuals designated by the observation mission.

Cooperate with other election observers - Observers must be aware of other election observation missions, both international and domestic, and cooperate with them as instructed by the leadership of the election observation mission.

Maintain proper personal behavior - Observers must maintain proper personal behavior and respect others, including exhibiting sensitivity for host-country cultures and customs, exercise sound judgment in personal interactions and observe the highest level of professional conduct at all times, including leisure time.

Violations of the Code of Conduct - In a case of concern about the violation of this Code of Conduct, the election observation mission shall conduct an inquiry into the matter. If a serious violation is found to have occurred, the observer concerned may have his/her observer accreditation withdrawn or be dismissed from the election observation mission.

(Pledge to follow) this Code of Conduct - Every person who participates in this election observation mission has the obligation to read and understand this Code of Conduct and must sign a pledge to follow it.
